

KAI RENAUD

SUMMARY

Highly motivated and detail-oriented Junior Applied Data Scientist with a strong foundation in machine learning and data analysis. Proven track record of delivering high-quality results in a fast-paced environment. Proficient in Python, pandas, and numpy with experience in data wrangling, visualization, and model development.

SKILLS

Programming languages: Python

Data manipulation and analysis: pandas, numpy

Machine learning: scikit-learn, TensorFlow

Data visualization: Matplotlib, Seaborn

Data storage: MySQL, PostgreSQL

Operating systems: Windows, Linux

Version control: Git

EXPERIENCE

Data Analyst, NovaTech Solutions (June 2022 - Present)

- * Developed and maintained data pipelines for large-scale customer data sets using pandas and numpy
 - * Trained and evaluated machine learning models using scikit-learn and TensorFlow to improve sales forecasting accuracy
 - * Collaborated with cross-functional teams to design and implement data-driven marketing campaigns
- Data Scientist Intern, Apex Analytics (May 2021 - August 2021)
- * Assisted in the development of a data visualization dashboard using Matplotlib and Seaborn for a retail client
 - * Contributed to the creation of a data quality control process using pandas and numpy to ensure data integrity
 - * Presented findings and recommendations to senior management and stakeholders

Data Analyst, Synapse Insights (January 2021 - May 2021)

- * Extracted and analyzed customer data from various sources using pandas and numpy
- * Built and maintained a data model to support business intelligence reporting using MySQL and PostgreSQL
- * Developed and presented insights to stakeholders to inform business decisions

EDUCATION

Bachelor of Science in Data Science, Evergreen University (2020)
